Best Wishes

for a

Successful Tournament!

TOMMY G. THOMPSON

Governor
State of Wisconsin

July 6, 1991

GREETINGS:

On behalf of the people of the State of Wisconsin, I am pleased to welcome all those gathered for the Westside Harlequins Rugby Football Club's Ninth Annual Lakefront 7's Tournament.

Wisconsin is pleased to once again host this tournament and sharing the fine tradition rugby embodies. The spirit of friendship and good sportsmanship have always been the backbone of the sport, and we are happy to have teams from all over the land here to compete in this outstanding event.

While in Milwaukee for the Tournament, do not forget to enjoy Summerfest, as well. Good luck to all, and best wishes for a great Tournament and a wonderful stay in Wisconsin!

Sincerely,

A handwritten signature in cursive script, reading "Tommy G. Thompson".

TOMMY G. THOMPSON
Governor

Established 1975

**Milwaukee, Wisconsin 53211
U.S.A.**

Member: Midwest Rugby Football Union

Thanks for coming,

John W. ...

Westside Harlequins R.F.C.

The Westside Harlequins Mission

The Westside Harlequins Rugby Football Club was established 16 years ago to provide an opportunity for athletes to play and promote the sport of rugby. Rugby, as many of you know, is a sport that is still in it's infancy in the United States. Though it has gained popularity in recent years, the general public has very little knowledge of the sport or its participants. The Westside Harlequins and teams such as ours strive to increase the level of awareness, to accomplish this we provide a continuing number of opportunities for participants to gather to play our sport. In doing so, it is our hope that good rugby will be played and that the public will come either by invitation or by curiosity to observe a sport that is one of the last true amateur sports.

If you're a rugger you know why you're here, if you're not a rugger and this is one of the first times you've seen the game then welcome to our world. We're glad you came and before you leave today please pick up a schedule of our fall matches, any Harlequin will gladly get you one. One of the most enjoyable tasks we as Harlequins have is explaining the game to our new friends.

Please come then to one of our games and bring a friend with you. In doing so you will have aided our efforts to broaden the public's awareness of Rugby and we'll be pleasantly forced to invite you to our post-game activities where some of the finer points of the game can be robustly discussed.

RUGBY IS...

Positions on the Field — All Manner of Men

The Forwards

There are eight of these, and they take part in scrums, line-outs, and all those disorganised-looking pile-ups in which each team tries to win the ball. The close physical contact with each other engenders a sense of community not shared by the backfield players, who are often regarded as some sort of effete snobs. With the changing strategy of the game, however, forwards are being released from their role as toilers for the backs, and are to be seen more and more with the ball in their hands, running and THINKING.

Props 1 & 3, Hooker 2.

With the hooker between them they form the front row of the scrum and are the foundation of a good team. Unfortunately, they are a much maligned trio on account of their sometimes frightening ugliness. Handsome props are not unknown, but the classic type is distinguished by having no neck and a face like Piltown man. Standing 5'9" and weighing 240 lbs, such men appear to be born (or hewn) at the age of thirty and remain at the same age for fifteen years, when they grow old overnight and retire from the game. Hookers are usually shorter, quite bald and toothless, with arms hanging ape-like at the sides.

PROPS HOOKER

IN A "SPORTING" EMBRACE

Second Row 4 & 5

The powerhouse pair, usually the tallest and heaviest men in the team, were once recognisable by the inevitably cauliflower ears, but the fashion for wearing scrum caps or tape around the head has reduced the incidence of this feature. In the scrum they are

usually hidden in a cloud of steam, but they are prominent in the line-out as they soar to catch the ball.

SECOND ROW

Flank Forwards 6 & 7, Number 8

Together they form the "back row" of the scrum, which performs a function like the US Cavalry or Marine Corps in a game — always first to the action with dash and élan. Actually, flank forwards are backfield players in disguise, for they have only a tenuous connection with the scrum and in modern rugby their role is a glamorous one, for though their errors are hard to detect, everybody sees their brilliant contributions.

FLANK FORWARDS

The Backs

In "Tom Brown's Schooldays" when the game was played with about fifty or sixty on a team, these were the "dodgers" as opposed to the "chargers." Their primary purpose still is to do brilliant things with the ball once the forwards have provided it.

Half Backs 9 & 10

The scrum half is often a diminutive man of great courage who follows at the heels of the forwards like a terrier, throwing the ball out when they produce it. He is as vital as the quarterback and comes in for much hostile attention. His partner, the stand-off half, must know him like a blood brother and be able to catch anything he throws to him, before opening out the game by running or kicking. English stand-offs are usually tall and elegant. Welshmen small, dark and elusive, whilst the French

THE BACK

THREE-QUARTERS

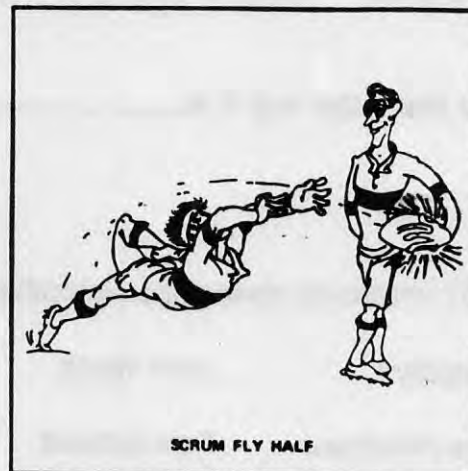

THE SCRUM HALF

FULL BACK

"demi d'ouverture" is spectacularly brilliant (except on wet days).

SCRUM FLY HALF

Three-Quarters 11, 12, 13, 14

Centers in the middle, wings on the ends, this quartet swings the ball laterally down the line on power plays, providing one of the great thrills of the game. These glamorous people often keep their hair in place throughout a game, but they are much abused by their forwards when they drop the ball.

Full Back 15

A lonely figure who acts as safety behind the other fourteen. He must make the last-ditch tackles, catch and kick unerringly, and have lots of cool. He is often the goalkicker and so is blamed for losing games.

The Westside Harlequins Executive Committee is responsible for the guidance and direction of the Rugby Football Club. We are in no manner solely or jointly responsible for the financial obligations of the club nor are we responsible for the behavior of the members and guests of the club.

Remember when we were kids how much fun we had
supping school and getting in trouble?

And remember how mad your parents got and your mom
told you not to hang around us because we were a bad
influence? Remember?

Well we've grown up now (more or less) and we're all
waiting for you down at Wolski's, 1836 N. Pulaski Street,
inconspicuously hidden on Milwaukee's lower Eastside.
Where the music's loud, the drinks cheap and it's hard to
find a parking space.

That wild, wacky, wonderful world of Wolski's, where pool
players rub elbows with dart tossers, looseballers crowd the
pinballers and ruggers drink and leer at the pretty girls,
so when you're looking for fun, remember Wolski's but
don't tell Mom.

WE AT WOLSKI'S TAVERN wish the Westside HARLEQUINS A Successful Season.

Hangover?

A lot of people believe that alcohol and hangovers have always been closely associated. This, however, is not true. For the first hundred years of drunkenness, alcohol did not just lead to hangovers, but in fact led directly to death.

In the centuries to follow, distilling methods improved and instead of leading directly to death, alcohol led to blindness, convulsions and mild cases of paralysis. This, of course, put a damper on the so-called "Happy Hour".

Today, fortunately, distilling methods have been perfected and the modern hangover consists only of a periodic loss of balance and minor brain deterioration, which makes it far less dangerous than the side effects from chili dogs, diet soft drinks or any number of breakfast cereals.

A man and his beer...The king is not yet dead.

"HARLEQUIN GOLD"

In our little Rugby Manual, it's written plain
and clear
That who would wear the green and gold would say
goodbye to fear;
Shall be a stalwart on the pitch; a taster of the ale -
In our little Rugby Manual; there's no such word as
"fail" -
Shall struggle on through summer's heat and early winter's
freeze,
Thrice round the pitch, if need there be, on bleeding hand and
knees.
It's training, training, first and last, the Rugby Manual saith;
The Emer'old rugger makes reply, "It's training to the death."
The forwards scour the rucks and mauls and mock at hurt and
pain,
And read their Rugby Manual and find their duty plain
Knights of the lists of unrenown, born of the athlete's need,
Disdainful of the spoken word, exultant in the deed;
Unconscious heroes of the waste, proud players of the
game,
Backs are the power behind the pack, upholders of
name:
For thus the founding lads hath said, "Our
town needs gold and 'grins'." And to main-
tain their word they formed
The Westside Harlequins.

TRY OR TOUCHDOWN - RUGBY ANALYSIS

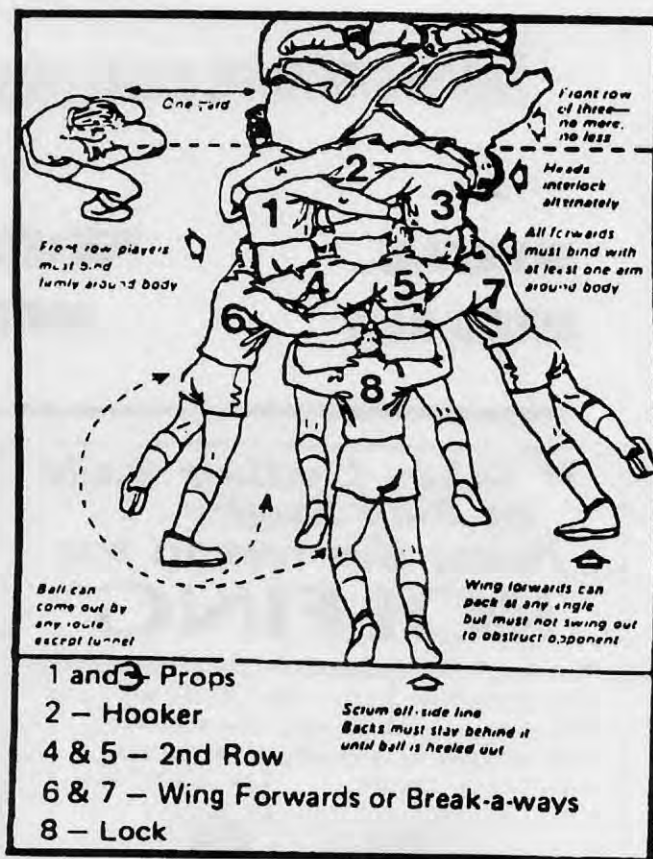

The sport of Rugby has been with us for well over one hundred years. The game began when a soccer player decided to run with the ball instead of merely kicking it around the field or pitch, as it is properly named. The object then as now was to score a goal, in soccer, and a "try" in Rugby. To score this try a player must "touchdown" the ball behind the goalposts. Unfortunately for Rugby spectators American football stole the term "Touchdown" when all a football player has to do to score is cross the goalline. A try conversely is scored by placing the ball in contact with the ground, or touchdown.

Rugby is similar to a lot of other games. A jumpball for possession in basketball is very similar to a lineout for possession in Rugby. Everybody jumps for the ball when it is thrown over their heads. This is derived from the throw-in of soccer. It's as rough as the face-off in Hockey, and has nothing to do with Baseball! Bearing this in mind the line-out becomes an intelligent means of getting the ball back into play.

The game begins with the kickoff. Practically identical to American Football, with the same objectives. Once again the kickoff found its origin in the game of soccer. The backfield of a Rugby side have the same responsibilities as the American football backs. Run and score, or at least make a good show of it. There are 7 pretty-boys in the flyhalf, standoff, or out-half (the position Chris Pike plays for the Harlequins), third and fourth are the inside center and outside centers, the last men being called the wingers, as in soccer and hockey. The final back who plays solo is the fullback.

Perhaps the most unique aspect of Rugby is the scrum, consisting of 8 players, akin to the "line" of American football. This group of beasts, as they are almost always larger and more brutish than the graceful backs, do the dirty work in Rugby. These fearless gents with names such as hooker, only one of these - as they are rare breed, prop, there are 2, flanker, 2 again, 2 locks, and the 8-person, contest for possession of the ball in the lineout and scrummage. The scrummage must be seen to be understood. The lineout has already been explained.

With 15 of these indomitable specimens on each team for a total of 30 being on the field until injury knocks one or two from the contest, the game becomes quite a spectacular affair unlike any other! A player with the ball may run, he may pass (but only laterally) he may punt at will, he may be tackled by an opponent. He may wind up on the ground under a ruck, much like a loose scrum, he may be trapped with the ball in an upright position called a maul. The possibilities are limitless! If you want more information ask any Harlequin too injured or tired to play at our next match.

By FRANCINE SCHWADEL

Staff Reporter of THE WALL STREET JOURNAL

... The aging of the population is hurting restaurant and bar receipts. "There are fewer people going out. They don't go out as frequently, and they don't spend as much," says Barry Leach, owner of Barry's Waterstreet Pump in Milwaukee.

Michael Strauss, chief economist at UBS Securities in New York, isn't surprised. "Structurally, demand is not going to be the same for many years," he warns.
